- The Amy Songs- originally I was going to call this CD "Acoustic sketches," but while I was putting it together, Amy came into the room and jokingly asked, "Are these the Amy songs?" Yes, I said. It's just a few of them though. And suddenly, my whole idea about the CD changed. So, here we have it. A few of my whole idea I usually make up the lyrics as I go along - just as a reminder. but I tend to sing them from being just "sketches" to being actually well-recorded songs, but many have not, and this can serve as a document reflecting the first true collection of Amy songs.
