

Welcome to DWAB's collection of Silly Songs & Odd Ditties. On this CD you'll find 14 "songs" created using only a computer. No real instruments were used. They aren't really songs, but more accurately, creations I did to allow me to get a better idea of some of the possibilities of computer music.

01. The Jazzy Bagpiper (created using the Mod Plug Tracker)
02. Layers (layers of samples created with Rubber Duck and sequenced with Magic Music Maker (MMM))
03. Soundtracks (Magic Music Studios (MMS) midi program)
04. The Hard Rockers (MMM)
05. Blatantly Stolen (A DWAB enhanced (or is it ruined?) sample from a Slapp Happy song. MMM)
06. Driving On (random samples sequenced with MMM)
07. Squeaky Deek & the Record Cutters (Mixman)
08. DWAB Classics (Music Write Plus)
09. Whiner (MMS)
10. "Wanna Hear Something Funny?" (MMM)
11. Rainy Days (Mixman)
12. Birds & Oboes (MMS & MMM)
13. Trompling (the limit for odd sounds from Mixman. How Unfortunate...)
14. A Day at the Zoo (MMM)

Cut along flaps, fold under and glue together to make CD envelope.
